Our Company Details (product categories, licenses, our details)

At [Character.com](https://character.com), we believe that kids should feel great every day—and that starts with getting dressed! Pulling on their favourite clothes brightens their mood, boosts their confidence, and fuels their imagination. It's like activating a superpower, making them happier, kinder, and more creative. That's why we sell only 'Happy Clothes'—outfits that inspire and empower kids to express their true selves.

Founded over fifteen years ago, Character.com has grown to become the biggest retailer of character clothing, offering an unrivalled selection, great quality, and unbeatable value. Whether your kids love PAW Patrol or Peppa Pig, Harry Potter or Minecraft, Star Wars or Bluey, we have something for everyone. Styled with the fun-filled adventures of their favourite characters, our clothing is more than just what they wear—it's a smile they can carry with them all day.
